Dear Jim,

On the basis of what you told me I've given the Jowers "confession" more thought and I have even more doubts. I won't take time to go into all of that now but I do encourage you, on your return, not to endorse it but instead to say that any such reports require a full and meaningful investigation immediately.

Shiela said she'll send us copies of the stories when she is back in her office.

I hope you'll ask J MX to send me whatever comes in on that.

One thing would interest me is whether Renfrom X Hays had anything to do with it?

I think you did send me your Conyers testimony or pages from it. I loaned whatever it was to McKnight. I think Dave would like a copy. I do remember, in writing JM, tp tell you I think it is fine.

If you did not do it before you left, remember the letter you were going to write me about Posner's present belief.

Best,
